

BIG LUMBER FIRE PERILS FRANKFORT
CHURCH FESTIVAL AT MOKENAAlbert Krusemark
Tells Story of
Our Freedom Fight

Albert H. Krusemark, president of the Lincoln-Way school board, speaker at the Marley Fourth of July celebration pleased his listeners with a double-barreled address.

He first reported on progress of the new high school and then gave an inspiring Independence Day address.

In his school report he said four buses with a 42 pupil capacity and two with a 63 pupil capacity have been purchased. Supt. Hunter Chapman and his secretary have moved into the new building and the board is meeting one or two evenings each week to handle all needed detail. He said everything is up to schedule for the opening of the school day after Labor Day.

Mr. Krusemark then gave an inspirational talk upon the struggle to secure the adoption of the Declaration of Independence and what it has meant to the free peoples of the world.

He reminded his hearers that all the colonies were not agreed in desiring independence from Great Britain. Finally all the colonies accepted except New York. Twenty days later it did and the Declaration was accomplished.

This, said Mr. Krusemark, was the beginning of a fight for freedom which still continues, only today nations may lose their liberties at the conference table instead of on the battlefield.

He praised Voice of America as a powerful instrument for spreading the message of democracy and said it is succeeding in spite of Russia's effort to jam the broadcasts.

Liberty and freedom, concluded Mr. Krusemark, are not just mere words. They are living symbols of things held most dear in the hearts of men. It is our duty and it is a service to ourselves to do everything in our power to maintain them.

Children's Class
Dramatic Reading

Children in the New Lenox area will have an opportunity to attend a one week class in children's literature and dramatics to be offered in New Lenox during the week of July 19-23. The class, which will be open to children from 6 to 13 years of age, will include reading and story telling from some of the best works in children's literature, together with dramatic illustration of the stories through acting and creative play.

Miss Schultz, who has recently completed three similar classes of two groups each in the nearby communities of Orland Park, Palos Park, and Mokena, specialized in speech and dramatics in children's literature and has been active in dramatics for several years, both in acting and as a director.

To Be Held on St. Mary's Playground
Prize Balloons, Eats, Joy For AllCUT THE WEEDS
SAYS VIL. BD.

Chiggers and noxious weeds are joined in complaints made to the village board at Mokena.

There have been several complaints that owners of vacant lots or portion of lots in Mokena have failed to cut down the noxious weeds as required by state and local laws.

In addition, parents have complained that their children are being severely bitten by chiggers. The theory is advanced that the high weeds forms a breeding ground for the insects and they then spread to well kept lawns. There is a general opinion that the chigger plague is worse than usual this year.

Cooperation on weed cutting in Mokena last year was very good, with only one or two exceptions. Under the state law, authorities can establish a lien against the property for the cost of the work. There is also provision for a fine of \$10 to \$300.

The board urges that land owners and tenants give attention to this matter as it affects the health and appearance of the community.

Fire which caused \$50,000 loss and might have destroyed the village, broke out in Frankfort at about 2:10 o'clock Tuesday morning, July 14.

Firemen from 11 communities fought down the flames and all day Tuesday hoses were played on the embers.

Orville Schroeder was on the roof where the fire started with Lynn Kohlhausen, son of the Frankfort fire chief. When the roof started to cave in Kohlhausen managed to get back to a part of the roof that was as yet undamaged and so escaped unhurt. Schroeder tried to jump but lost his balance and fell. His hip, ankle and elbow were badly bruised but X-ray examination at Hedges clinic showed no bones were broken.

The other injury was that of a fireman from the department. He was treated for cuts and bruises.

The fire was in the B&M lumber Co. yards owned by Burton Breidert and Wenell Morrison. It was discovered at 2:10 a.m. by Marion Stayton, living on Sauk Trail. He notified Frankfort Fire Chief Fred Kohlhausen, who promptly called out the local department.

Chief Kohlhausen saw at once that the fire was too big and too potentially dangerous for the Frankfort firemen to fight alone. He sent in calls for help and prompt responses were received from the fire departments of Mokena, Joliet, New Lenox, Tinley Park, Chicago Heights, Park Forest, Matteson, Monee, Manhattan and Orland Park.

The fire, whose cause is unknown, started in a pile of about 100 feet of lumber which was covered by a roof. Next to this was a shed containing several carloads of lumber.

The fire reached this lumber storage shed but was prevented from reaching the lumber company office, which was next to it. They also kept it from reaching an adjoining building occupied by A. C. Bauch, who operates the Ford garage and handles Allis Chalmers implements. Many farm implements standing in the rear of the garage were damaged by heat before the fire was discovered.

There were two small explosions. These were caused by turpentine in the lumber company office.

The damage is estimated at \$50,000. The lumber company which is covered by insurance will rebuild.

Standard Oil tanks were located 200 feet north of the fire scene but no explosions were caused.

Fortunately the night was calm. Had there been a high wind there might have been a much more tragic story.

During the night the women of Frankfort served sandwiches and hot coffee to the fire fighters.

Almost everyone in Frankfort and many from nearby villages watched the spectacular affair as the brave fire fighters trained their streams of water, sometimes six of them at a time, on the blazing fire seeking to devour all in its path. The fire lighted the village as though day time and could be seen in the sky for miles around.

Fire Department

The Frankfort volunteer fire department will hold its annual carnival Friday, Saturday and Sunday, August 6, 7, 8. It will be held on the main street of Frankfort.

Proceeds will be for the benefit of the fire department. In view of its fine work in the Tuesday morning lumber yard blaze, people will probably be more than ever eager to show their appreciation by attending.

Thieves May Make 6,000 "Visits" Next Three-Day Holiday

WAUSAU, Wis.—More than 6,000 burglaries will take place over the three-day holiday in the United States unless proper precautions are taken by homeowners, apartment dwellers and storekeepers. This is the estimate of William H. Burhop, president of one of the nation's leading insurance companies. The average burglary loss will be

Protect your house from this fellow over the long holiday week-end, nearly \$200, he declared. This is a potential loss of \$1,200,000. He warned especially that rural burglaries were up about 15 per cent last year.

Records kept by Employers Mutuals of Wausau show that burglaries increase considerably over three-day holiday periods. Professional and amateur thieves take advantage of carelessness on the part of homeowners and businessmen. Here are some rules to protect your home and store:

Homeowners—Don't leave any outward evidence that you have gone away for the week-end: stop milk and newspaper deliveries; don't pull down the shades; leave an upstairs light burning; lock up securely.

Businessmen—Don't leave money in your store over the long week-end. Deposit any large amounts of cash in your bank's night depository after business hours Saturday.

Study in Precision

Have you ever puffed on the cottony head of a seeded dandelion, and watched its filmy segments scatter on the winds? If so, you will readily identify the parachute-topped object (center right) with stem and "cloven-hoof." It is an ordinary dandelion seed, 25 times enlarged, attached to a stemmed "flyer."

Vying with nature's handiwork are the five incredibly tiny and precise, man-made, steel balls (left) that form the "heart" of the winding mechanism of the world's most technically advanced self-winding watch, the Eterna-Matic. Each ball weighs only 112 hundred-thousandths of a gram and has an actual diameter of 65 hundredths of a millimeter.

By comparison, the seed (lower right) weighs 47 hundred-thousandths of a gram and has a diameter of 64 hundredths of a millimeter. This study in precision is a micro-photographic view of nature's and the watchmaker's miniature wonderlands.

The critical demand for coal over the balance of this century cannot be appreciably relieved by the development of nuclear power, according to a fuels authority.

The largest coal strip mine shovel in the world with a 60 cubic yard capacity is now being built at a cost of \$2½ million for an Ohio coal company.

cas, Jerry Miller, and Roger Hug. The next game of the Tinley Park Small Fry will be tonight, at 6:30. The Ponies will play Manhattan at Tinley Friday night, at 6:30 and Frankfort at Frankfort, Sat., at 6:30 p.m.

GIRLS SOFTBALL NOTES

By Ruth

The Frankfort Girls Softball team traveled to Steger Wednesday night and defeated their host by a 6 to 1 score. The game got underway with Arleen Flesher on the hill for Frankfort and Chudy on the mound for Steger. Pat Boleman started catching but Carole Peterson took over in the third with Pat going to right field. For Steger, Kloss did the catching.

It was three up-three down in the first and second innings for Frankfort, but in the third, Marilyn Boleman let off with a walk and scored later on Arleen Flesher's double to give Frankfort one run.

Steger scored their one run in the third inning when Urban got a free pass, stole around to third and scored on a passed ball. The fourth inning netted three more runs for Frankfort when Steger's pitcher was a little wild and allowed Irene Benck, Carole Peterson, and Pat Boleman to walk. Then, Lorraine Redman was safe on a fielder's choice, with Irene going home on the play. A triple by Arleen Flesher put her in the RB column for another two runs to give Frankfort a 4 to 1 lead.

Until the first of the seventh, it was a fast but tight ballgame. In the seventh, Arleen led off with a single, Barbara Hauser hit safely and Irene Benck walked. Lois Steinbach sacrificed to score Arleen and Barbara Hauser crossed home plate on a passed ball to give Frankfort a total of six runs.

Steger's half of the seventh saw Graziani lead off with a single, followed by a ground out for Kloss with Graziani taking second on the play. Then Brownfield singled to push Graziani to third. With one out and girls on first and third, Urban hit a grounder to third. Irene Benck picked it up, tossed to Barbara Hauser at second, who in turn threw to Jean Lentz at first for a very neat and effective double play. The action was fast and this scorekeeper was slightly flabbergasted, but pleased, and after recovering from her surprise, she quietly shut the scorebook and started for Frankfort.

On Sunday afternoon, July 11th, was the South Suburban Girls Softball League All-Star game. The League was split up into two teams. Five of our Frankfort girls along with five girls from Steger, Matteson, and Beecher formed a team known as the "South Team" and played against a team known as the "North" comprised of five girls from the N. Harvey, Rich, Oak Forest, and Tinley Park teams. Our side—the South, won over

the North 6 to 2. For the South, Connie Becker pitched the first half and Arleen Flesher the last half of the game. Edna Mullins caught for the first half and Carole Peterson the last.

For the North, four pitchers were used. In order, Dorothy Heimlich, Diane Albright, Joyce Albright, Joyce Harmain, and Agnes Hawrysis. The catchers were Judy Gray and Carol Kennedy.

The South team scored the first run of the game in the second inning. Frankfort's own Lorraine Redman hit one over the centerfielder's head for a homerun. The North, got their only two runs in the first half of the fifth, when Betty Gash hit a homerun with one on base.

In the last of the fifth, Carole Peterson was safe on an error and then Lois Steinbach cut loose with a home run to put the South back in the lead 3 to 2. In the sixth inning, the same gal, Lois Steinbach, again came up to bat and hit another homerun way over the centerfielder's head, this time with two on base and the score advanced to 6 to 2 where it remained.

The five girls chosen to represent Frankfort were Irene Benck, Carole Peterson, Arleen Flesher, Lorraine Redman and Lois Steinbach. All five did a very good job at their positions and it makes all of us connected with the team very proud of the job they did. We are also proud because we know that Frankfort's hitting power played a very distinctive part in this victory for the South team. Not only our girls, but all the girls played a very good game and their playing together (under the management of Lewis Cruz of Matteson) displayed very good cooperation and sportsmanship, which is one of the objectives the league is trying to promote.

Tinley Wins Again

The Trinity Walther League team of Tinley Park continued its 5 game winning streak by upsetting Richton Park 11-8. This was the second contest between these two teams this year. In the first game Tinley nosed out the last year's champions 11-10 in an extra inning affair. Richton Park had started this season with 12 consecutive wins which had given them 1st place last year. With this second loss to Tinley, Richton dropped into 3rd place in the Southwest Suburban Walther League conference.

Both teams played rather sloppy ball defensively. Richton committing 10 errors to Tinley's 6. Offensively, each team collected only 9 hits but Trinity used these hits in the right places to account for 11 runs while Richton could only come up with 8.

Sluggers for the Tinley team were George Schultz and Leroy Hoeh, each of whom bashed out a triple. Bill Koehler socked a double to help his own cause in winning his 3rd game of the season against no losses, and Les

Becue used his 2 hits to drive in 3 decisive runs.

Four runs were scored in the 4th inning oddly enough on only 1 hit. Warren Schultz reached base on an error, advanced when Koehler was hit by a pitched ball, and scored on another error. Leroy Hoeh reached base on an error to lead 'em up. Bob Fremder walked to force in the run and the only hit of the inning by Les Becue brought in Ray Utte.

Tinley's 5 run 5th inning came on 4 hits. Bill Koehler led off with a ground rule double into an oats field. George Schultz singled to score him. Ray Utte singled and went to second when the right fielder fumbled his hit. Leroy Hoeh lined to the second baseman, Bob Fremder walked for the second time, leading up the bases.

With the count at 3 and 1, Les Becue lined a single to left scoring two more runs. After he was forced at second by Norm Keuch, Bob Fremder and Norm Keuch scored on a pair of errors while Jim Fremder was reaching first the easy way.

An insurance run was scored by Tinley in the last inning when Bob Fremder walked for the third time, advanced to second on a sacrifice, and scored on Keuch's only hit of the day.

Tinley Park will be host to Matteson next Sunday when a double header will be played on Tinley's diamond. The diamond is located at 17th and Ridgeland. Game time 2:00. Everyone is invited to come.

Girls Softball

Sue Balzhiser

Playing in the All-Star game at Matteson, July 11, were Diane Albright, Sue Balzhiser, Beverly Lauffer and Judy Gray. Despite their efforts, along with the rest of the North Suburban team, the South Suburbans beat them 6-2 in a well played ball game.

Our Tinley Park girls were matched against second place Oak Forest Monday night and got beat 20-8.

Oak Forest scored 13 of their runs in the first inning on a combination of hits, stolen bases and errors.

After that our girls settled down considerably to hold Oak Forest to runs the rest of the game while we went on to score 8 runs featured by 3 home runs. The sluggers for Tinley Park were Alice Albright, Carol Meyers and Jayne Webb.

Starting batteries for Tinley Park were JoAnne Gallina doing the pitching and Bonnie Brauer behind the plate. Jayne Webb relieved JoAnne in the third inning and Judy Gray assumed the catching responsibility in the second.

The schedule for our remaining games:

Tinley Park at Matteson... July 15

Tinley Park at N. Harvey... Aug. 11
Frankfort at Tinley Park... Aug. 16

Names of Drivers Af State Fair

Illinois State Fair officials have announced that five more "big name" drivers have been signed for the 100-mile AAA automobile race Saturday, August 21, at the 1954 Illinois State Fair.

The signing of the five drivers brings the race roster to ten speedsters.

The five drivers are Sam Hanks, Manuel Ayulo, Johnny Parsons, Don Freeland and Gene Hartley. Those previously signed to drive in the race are Jack McGrath, Jimmy Bryan, Chuck Stevenson, Rodger Ward and Jimmy Reece.

Plans for the installation of an electronic timing device and a hydraulically operated judges stand for the one-mile race track are being made by Illinois State Fair officials.

The two improvements will insure the greatest possible accuracy in the judging of race events at the 1954 Illinois State Fair. The timer board will record the time of day, the number of the race, and the time for one leader at all four of the quarter-mile posts on the track. It will stand eight feet high and will be visible to everyone in the grandstand.

(The new judges stand will be

lifted five and a half feet above the platform and then three feet out over the track.

Coal is the greatest known potential source of energy in this country.

Hank replies "Did you say us?"

Mrs. Sam Juhas was up bright and early as the sunshinet gaze among her colorful variety of fragrant flowers.

"Such tiny, cute birds," echoed Edith Erblan dand Helen Karpson while cuddling two newly hatched bantam chicks.

Jerilynn Aylmer and Linda Coilt were picking those bouquets of tiger lilies for their grandmother.

That live ornament on the fender of the station wagon was Al-

len Grybash.

While standing among the speckled clerks of Welch lumber yard, a lady inquires, "Who's the boss here?" John Balaz answered, "Oh, you'll know him; he's the fellow wearing glasses."

Danny Marshall and Dennis Porick were enjoying the refreshing, relaxing splashes of the sun-warmed water in their backyard "private pool" while an audience of youngsters were wishfully standing by.

Nancy Porick, the Marshall twins, Janet and Janice Ann, circled with innertubes and using chairs for diving boards, bravely made repeated leaps into the ten inches of "cool water."

That was Mr. Dina sitting in front of his barber shop enjoying the chair, shade and cigarette.

At second glance, you'll notice that those life life ducks in Agnes Hayden's yard are stationary. A little girl stands at the window of the Mokena library, pressing her nose against the glass, trying to view the inside from the outside.

Illinois Farmers Show Ind'a How To Improve Soil

Illinois scientists are showing farmers of India how to increase crop production on soils that are starved for nitrogen.

How they're doing it is described in an article in the current issue of the IAA Record, official publication of the Illinois Agricultural Association. The IAA is the statewide Farm Bur-

eau organization.

The article is based on observations and reports of Frank Shuman, formerly farm adviser in Whiteside county, who says: "Indian soils are so tired they need all the legumes, all the manure and all the chemical nitrogen they can get. In my first demonstration, all I did was hoe out the weeds and supply chemical nitrogen."

"It worked like magic. The corn yield tripled and the nitrogen content of the corn increased 76 per cent. In my opinion, more corn could be grown in India than in the Corn Belt if the right hybrid could be found."

"India has the rainfall, the open soil and hot summer. Here at Allahabad the soil has plenty of calcium, phosphorus and potash."

"But Indians need their imaginations fired. When you show them 43,750 pounds of green hay in three cuttings, they look at things differently. Milk production increased 30 per cent when cows were fed a mixture of green alfalfa hay and oats."

"There is plenty of room for improvement in wheat production," Shuman writes. "India averages about eight bushels to the acre. Pusa 4, a new variety, yielded 41 bushels an acre last year on irrigated land."

"Allahabad Institute's average in 1953 was 15 bushels an acre. Allahabad is an agricultural college largely supported by church and individual contributions from the United States."

Self help is one of the major

rules at the Indian experimental college, Shuman says. "Our rule here is nexer to encourage doles or charity in the village scheme. It kills Indian self pride."

"When Indians are sparked by the spirit of self help, they become proud of their achievements. This is a healthy sign in a country rife with superstition and prejudice," he concludes.

GAS

WATER HEATER!

This is living! As usual, I'm the last one in—and I like scads of hot water for bathing...I've got the tub filled up to...well, take my word for it, it's brimful of refreshing hot water! But to get down to cases, nothing heats water faster than the speedy GAS flame. Even after my household chores—washing, cleaning, etc.—are done, there's still plenty of hot, really hot water for bathing or a round of family showers. And, because GAS is so fast, we didn't need a bulky, oversized tank either! Economy? You bet! A few pennies a day give us gallon after gallon of instant hot water...and we saved, too, on the low-cost installation.
